### ***Program Celebrates Seventeen Years of Support to Kohkums***

The Saskatoon Community Clinic's *Strengthening the Circle Program* is celebrating seventeen years of supporting the health and well-being of Aboriginal Grandmothers (Kohkums) in Saskatoon on Tuesday, March 10, 2009. The celebration will include an opportunity for the media to learn more about the Program and its importance in the lives of the women it serves. There will be an opportunity to speak to program participants as well as the coordinator of the program.

The program has been supporting the health and well-being of Kohkums in Saskatoon since 1992. A recent program evaluation done by the Community University Institute for Social Research (CUISR) shows that the program is providing valuable support to this group of women living in our community.

Information about the program and its importance in the participant's lives will be highlighted. Both English and Cree will be spoken at the event.

The celebration will be held:

**Tuesday, March 10**  
2:15 p.m. to 3:00 p.m.  
Meeting Room  
Saskatoon Community Clinic – Mel Langer Building  
424 1<sup>st</sup> Avenue North  
Saskatoon
